SOLUTION

SKAT, in charge of Danish tax and customs, was provided with a comprehensive Datawarehouse and Business Intelligence solution, allowing it to offer better services to companies and individuals. With Affecto as a long-term partner, SKAT uses BusinessObjects tools to plan and target communication and inspection visits. In addition, the tools are used strategically to spearhead the development of intelligent tax collection.

BENEFITS

- Optimised use of resources
- Improved customer satisfaction
- Accurate and detailed analysis of tax and customs policy
- Long-term solution to support strategic goals

SOLUTION

Norwegian consumer electronics group Expert improves its reporting efficiency and financial data access with SAP Business Planning and Consolidation tools. Affecto's solution helps Expert maintain a better overview over its entire Nordic operation and requires no IT staff support, as the system is run by the finance department.

BENEFITS

- Financial transparency maximised
- Data protection improved
- Risk management capabilities enhanced
- Data collection errors minimised

SOLUTION

Danish natural ingredient leader Chr. Hansen makes the most of its mission critical data with a Business Intelligence solution from Affecto, based on BusinessObjects. The solution is used as a strategic reporting tool for both internal users and external customers, providing Chr. Hansen with an instant, unambiguous overview of its business.

BENEFITS

- Increased productivity through automation of tasks
- Improved global business planning
- Optimised use of mission critical data
- Future-proof solution that is easy to scale

SOLUTION

BBS, a leading Norwegian provider of electronic ID, payment and information solutions, uses both SAP Business Warehouse (BW), a datawarehouse by Informatica and BusinessObjects (BO). Supported by Affecto, BBS implemented the SAP BO Integration Kit, which lets the company use BO applications with its SAP BW data. This helps BBS improve its reporting efficiency by combining new reporting features from the BO tools with well known SAP-data.

BENEFITS

- Enhanced Reporting efficiency
- Improved customer satisfaction

SOLUTION

Metsäliitto, an international forest industry group, was given SAP BI consultancy for its wood procurement operation. Affecto's solution provided Metsäliitto with more comprehensive information on the company's international wood procurement process. This allows Metsäliitto to plan and carry out procurement more efficiently.

BENEFITS

- Faster and better decision making
- Costs reduced due to more efficient logistics planning
- Procurement efficiency improved through more accurate analysis of data
