

# EXPAND YOUR KNOWLEDGE

## AFFECTO SAP BUSINESS OBJECTS EDUCATION

As a one of the largest Nordic SAP Education Partners, Affecto offers a wide range of courses within the SAP Business-Objects product suite. Our certified education instructors primarily work as consultants and therefore have a broad knowledge of the SAP BusinessObjects product suite and their usage within many industries. With more than 10 years of experience with education and courses, we continuously try to improve and evolve our education offering to fit the needs of our customers.

### RENT AN INSTRUCTOR OR JOIN AN OPEN COURSE

You can choose either to rent an instructor to give you and your colleagues the SAP BusinessObjects knowledge you need, or to join other companies on an open course learning from their experiences as well.

Affecto's offer to rent an instructor gives your company the opportunity to hold the course at your site or at Affecto's training facilities. A closed course for a company means that the participants get the exact knowledge they need to solve the specific challenges they may have. It is even possible to arrange for the course to be held using your own data.
